DETAILED ACTION

Response to Arguments

Applicant's arguments filed June 26, 2006 have been fully considered but they are not persuasive.

The Applicant argues that the combination of Rogers and Buckham fails to disclose sending said application program to said mobile communication device; and running said application program on said mobile communication device to allow tracing of a position of said mobile communication device. The Examiner respectfully disagrees. As discussed in the previous Office Action, Rogers discloses sending applications via SMS to a mobile communications and running the application on the device (see column 5, lines 4-13), and Buckham discloses an application designed to track a moil resource (see column 10, lines 27-63).

The Applicant makes similar arguments with respect to the remainder of the claims, however, for the same reasons outlined above, the Examiner respectfully disagrees.
